CONTENTS

MAY 1993 VOLUME 124 NUMBER 1

Tansley Review No. 46.

Wall extensibility: its nature, measurement and relationship to plant cell growth. By DANIEL J. COSGROVE 1

Tansley Review No. 47.

Interactions of fungi with toxic metals. By G. M. GADD 25

External hyphae of vesicular–arbuscular mycorrhizal fungi associated with *Trifolium subterraneum* L. 3. Hyphal transport of ^{32}P and ^{15}N. By A. JOHANSEN, I. JAKOBSEN AND E. S. JENSEN 61

Mycorrhiza-like interaction between the achlorophyllous gametophyte of *Lycopodium clavatum* L. and its fungal endophyte studied by light and electron microscopy. By E. SCHMID AND F. OBERWINKLER 69

Identification of cytoskeletal components in pine ectomycorrhizas. By SARI TIMONEN, ROGER D. FINLAY, BENGT SÖDERSTRÖM AND MARJATTA RAUDASKOSKI* 83

Root colonization of *Lupinus latifolius* Agardh. and *Pinus contorta* Dougl. by *Phialocephala fortinii* Wang & Wilcox. By T. E. O'DELL, H. B. MASSICOTTE AND J. M. TRAPPE 93

Retention and spread of a genetically engineered pseudomonad in seeds and plants of *Zea mays* L. – a preliminary study. By P. J. FISHER, S. A. BROAD, C. D. CLEGG AND H. M. LAPPIN SCOTT 101

Accumulation of photoassimilate by *Peronospora viviae* (Berk.) Casp. and leaves of *Pisum sativum* L.: evidence for nutrient uptake via intercellular hyphae. By J. S. C. CLARK AND P. T. N. SPENCER-PHILLIPS 107

Wound-healing in *Vaucheria longicaulis* Hoppaugh var. *macounii* Blum. 1. Cytomorphological study of the wound response. By LAURIE TORNBOM AND LUIS OLIVEIRA 121

Wound-healing in *Vaucheria longicaulis* Hoppaugh var. *macounii* Blum. 2. Cytoplasmic streaming and organelle movement. By LAURIE TORNBOM AND LUIS OLIVEIRA 135

The marine lichen *Lichina confinis* (O. F. Müll.) C. Ag.: ultrastructure and localization of nitrogenase, glutamine synthetase, phycoerythrin and ribulose 1,5-bisphosphate carboxylase/oxygenase in the cyanobiont. By SVEN JANSON, AMAR N. RAI AND BIRGITTA BERGMAN 149

Combination effect of NaCl salinity, nitrogen form and calcium concentration on the growth, ionic content and gaseous exchange properties of *Triticum aestivum* L. cv. Gamtoos. By H.-J. HAWKINS AND O. A. M. LEWIS 161

Effect of NaCl salinity, nitrogen form, calcium and potassium concentration on nitrogen uptake and kinetics in *Triticum aestivum* L. cv. Gamtoos. By H.-J. HAWKINS AND O. A. M. LEWIS 171

Annual changes in dormancy and germination in seeds of *Sisymbrium officinale* (L.) Scop. By HARRO J. BOUWMEESTER AND CEES M. KARSSEN 179

* Illustration on cover from this paper.

JUNE 1993 VOLUME 124 NUMBER 2

Tansley Review No. 48.

Infection structures of fungal plant pathogens – a cytological and physiological evaluation. By KURT MENDGEN AND HOLGER DEISING 193

Scutellospora calospora (Nicol. & Gerd.) Walker & Sanders associated with subterranean clover: dynamics of colonization, sporulation and soluble carbohydrates. By J. N. PEARSON AND P. SCHWEIGER 215

Acquisition of nitrogen by external hyphae of arbuscular mycorrhizal fungi associated with *Zea mays* L. By BEAT FREY AND HANNES SCHÜEPP 221

Nitrogen translocation between *Alnus glutinosa* (L.) Gaertn. seedlings inoculated with *Frankia* sp. and *Pinus contorta* Doug. ex Loud seedlings connected by a common ectomycorrhizal mycelium. By KRISTINA ARNEBRANT, HANS EK, ROGER D. FINLAY AND BENGT SÖDERSTRÖM 231

Impaired nodule function in *Medicago polymorpha* L. infected with alfalfa mosaic virus. By J. M. WROTH, M. J. DILWORTH AND R. A. C. JONES 243

The effect of temperature on the sensitivity of nitrogenase to oxygen in the cyanobacteria *Anabaena cylindrica* (Lemmermann) and *Gloeothece* (Nägeli). By JOHN R. GALLON, DENNIS M. PEDERSON AND GEOFFREY D. SMITH 251

Delayed NH_3 and N_2O uptake by maize leaves. By G. L. GRUNDMANN, R. LENSI AND A. CHALAMET 259

Needle chlorosis in Sitka spruce following a three-year exposure to low concentrations of ozone: changes in mineral content, pigmentation and ascorbic acid. By PETER W. LUCAS, LEENA RANTANEN AND HORST MEHLHORN 265

Orientation of the lateral roots of trees. II. Hydrotropic and gravitropic responses of lateral roots of Sitka spruce grown in air at different humidities. By M. P. COUTTS AND B. C. NICOLL 277

Do inorganic solutes limit growth of the facultative hemiparasite *Rhinanthus minor* L. in the absence of a host? By W. E. SEEL, A. N. PARSONS AND M. C. PRESS 283

Morphological plasticity of the clonal herb *Lamiastrum galeobdolon* (L.) Ehrend. & Polatschek in response to partial shading. By MING DONG 291

Carryover effects on the clonal growth of the grass *Holcus lanatus* L. By J. M. BULLOCK, A. M. MORTIMER AND M. BEGON 301

Flowering characteristics and fertility of interploidy progeny from normal and $2n$ gametes in *Dactylis glomerata* L. By T. SATO, N. MACEIRA, R. LUMARET AND P. JACQUARD 309

Competition between diploid and derivative autotetraploid *Dactylis glomerata* L. from Galicia. Implications for the establishment of novel polyploid populations. By N. O. MACEIRA, P. JACQUARD AND R. LUMARET 321

Primary homostyly in *Primula* L. subgenus *Sphondylia* (Duby) Rupr. and the evolution of distyly in *Primula*. By HUSSEN AL WADI AND A. J. RICHARDS 329

Effect of wounding on the relations between vascular rays and vessels in *Melia azedarach* L. By SIMCHA LEV-YADUN AND RONI ALONI 339

Flandrian vegetational history of south-eastern England. Pollen data from Pannel Bridge, East Sussex. By M. P. WALLER 345

REVIEWS 371

Illustration on cover is from Timonen S. *et al.* 1993. *New Phytologist* 124: 83–92.

JULY 1993 VOLUME 124 NUMBER 3

Pattern of fructan synthesized in cell-free extracts from leaf blades of chilled *Triticum aestivum*. By PIERRE BANCAL AND JEAN PIERRE GAUDILLÈRE 375

Species-dependent patterns of fructan synthesis by enzymes from excised leaves of oat, wheat, barley and timothy. By ANDREW J. CAIRNS AND JENNIFER E. ASHTON 381

Structure of fructan oligomers in cheatgrass (*Bromus tectorum* L.) By N. J. CHATTERTON, P. A. HARRISON, W. R. THORNLEY AND J. H. BENNETT 389

Binding of monoclonal antibodies to vegetative tissue and fucose-containing polysaccharides of *Fucus serratus* L. By JONATHAN R. GREEN, CHRISTOPHER J. STAFFORD, J. LEIGHTON JONES, PHILIP J. WRIGHT AND JAMES A. CALLOW 397

Interphase and preprophase microtubule organization in some polarized cell types of the liverwort *Marchantia paleacea* Bert. By P. APOSTOLAKOS AND B. GALATIS 409

Ultrastructure and chemical composition of some isolated plant cuticles in relation to their permeability to the herbicide, diuron. By Evelyne Gouret, Rene Rohr and Andre Chamel 423

The effects of ozone episodes on autumn leaf fall in apple. By J. J. J. Wiltshire, C. J. Wright, M. H. Unsworth and J. Craigon 433

Impact of O_3 and SO_2 on reproductive development in oilseed rape (*Brassica napus* L.). I. Pollen germination and pollen tube growth. By C. Bosac, V. J. Black, C. R. Black, J. A. Roberts and F. Lockwood 439

Effects of acid, or ammonium-enriched, artificial mist on leaf blight of London plane [*Platanus* × *acerifolia* (Ait.) Willd.] and on the behaviour of the causal fungus, *Apiognomonia veneta* (Sacc. & Speg.) Höhn. By Roman von Sury and Walter Flückiger 447

Resveratrol production as a part of the hypersensitive-like response of grapevine cells to an elicitor from *Trichoderma viride*. By Antonio A. Calderón, Jose M. Zapata, Romualdo Muñoz, María A. Pedreño and A. Ros Barceló 455

Effects of pH on arbuscular mycorrhiza. I. Field observations on the long-term liming experiments at Rothamsted and Woburn. By G. M. Wang, D. P. Stribley, P. B. Tinker and C. Walker 465

The survival of infective hyphae of vesicular–arbuscular mycorrhizal fungi in dry soil: an interaction with sporulation. By D. A. Jasper, L. K. Abbott and A. D. Robson 473

Symbiotic exchange of carbon and phosphorus between cucumber and three arbuscular mycorrrhizal fungi. By J. N. Pearson and I. Jakobsen 481

The relative contribution of hyphae and roots to phosphorus uptake by arbuscular mycorrhizal plants, measured by dual labelling with ^{32}P and ^{33}P. By J. N. Pearson and I. Jakobsen 489

Symbiosis-related polypeptides associated with the early stages of ectomycorrhiza organogenesis in birch (*Betula pendula* Roth). By P. Simoneau, J. D. Viemont, J. C. Moreau and D. G. Strullu 495

Colonization of wheat (*Triticum vulgare* L.) by N_2-fixing cyanobacteria: III. The role of a hormogonia-promoting factor. By M. Gantar, N. W. Kerby and P. Rowell 505

Growth responses of two contrasting upland grass species to elevated CO_2 and nitrogen concentration. By J. M. Bowler and M. C. Press 515

Modern pollen deposition in cave sites: experimental results from New York State. By David A. Burney and Lida Pigott Burney 523

Reviews 537

AUGUST 1993 VOLUME 124 NUMBER 4

Tansley Review No. 49.

The genetics of metal tolerance in vascular plants. By Mark R. Macnair 541

Tansley Review No. 50.

Nutrient cycling in forests. By Peter M. Attiwill and Mark A. Adams 561

Nomenclature and diagrammatic representation of oligomeric fructans – a paper for discussion. Compiled and Edited by D. H. Lewis 583

Influence of acidic mist on frost hardiness and nutrient concentrations in red spruce seedlings. 1. Exposure of the foliage and the rooting environment. By Lucy J. Sheppard, J. N. Cape and I. D. Leith 595

Influence of acidic mist on frost hardiness and nutrient concentrations in red spruce seedlings. 2. Effects of misting frequency and rainfall exclusion. By Lucy J. Sheppard, J. N. Cape and I. D. Leith 607

Responses to ozone of varieties of common bean (*Phaseolus vulgaris* L.). By Michael R. Guzy and Robert L. Heath 617

Light environment alters response to ozone stress in seedlings of *Acer saccharum* Marsh. and hybrid *Populus* L. I. *In situ* net photosynthesis, dark respiration and growth. By M. G. Tjoelker, J. C. Volin, J. Oleksyn and P. B. Reich 627

Light environment alters response to ozone stress in seedlings of *Acer saccharum* Marsh. and hybrid *Populus* L. II. Diagnostic gas exchange and leaf chemistry. By J. C. Volin, M. G. Tjoelker, J. Oleksyn and P. B. Reich 637

Light environment alters response to ozone stress in seedlings of *Acer saccharum* Marsh. and hybrid *Populus* L. III. Consequences for performance of gypsy moth. By R. L. Lindroth, P. B. Reich, M. G. Tjoelker, J. C. Volin and J. Oleksyn 647

Ozone effects on root-disease susceptibility and defence responses in mycorrhizal and non-mycorrhizal seedlings of Scots pine (*Pinus sylvestris* L.). By Pierluigi Bonello, Werner Heller and Heinrich Sandermann Jr 653

Further evidence for a correlation between nodulation genotypes in alfalfa (*Medicago sativa* L.) and mycorrhiza formation. By S. M. Bradbury, R. L. Peterson and S. R. Bowley 665

Factors determining lobe growth in foliose lichen thalli. By R. A. Armstrong 675

Nitrogen relations of the sorghum–*Striga hermonthica* host–parasite association: germination, attachment and early growth. By I. Cechin and M. C. Press 681

The relative contribution of remobilization and root uptake in supplying nitrogen after defoliation for regrowth of laminae in four grass species. By B. Thornton, P. Millard, E. I. Duff and S. T. Buckland 689

Responses to salinity of grapevine plants with split root systems. By U. Shani, Y. Waisel, A. Eshel, S. Xue and G. Ziv 695

The functional ecology of *Empodisma minus* (Hook. f.) Johnson & Cutler in New Zealand ombrotrophic mires. By A. D. Q. Agnew, G. L. Rapson, M. T. Sykes and J. Bastow Wilson 703
